

## Webinar: Fertility Benefits February 29, 2024

Please Join the Northern New Jersey Chapter for our next webinar on a topic of growing importance in today's society: "Fertility Benefits" on February 29 at 12:00 pm Eastern. Our speaker is Parmpreet Mann, Account Manager at Progyny.

Employers struggle to retain and engage employees with their benefits package. Fertility benefits are an offering that many employees and their spouses look to for help in building their families. These benefits give members the opportunity to bring a new life into the world. With the Progyny benefit, members have access to Smart Cycles that allow them to pursue services such as IVF Freeze-All and egg freezing. The ultimate philosophy of the benefit is to give every member regardless of their race, gender, or sexual orientation a chance to build a family with support from a Patient Care Advocate through every facet of the journey and resources to make educated decisions.

### **SPEAKER:**

**Parmpreet Mann (Parm)**, Account Manager, supports the Account Management team by implementing and servicing Progyny's mid-sized to large employer segment. Prior to joining Progyny, Parm worked in Operations at Collective Health. He earned a bachelor's degree in Health and Societies with a focus on Health Care Markets and Financing from the University of Pennsylvania.
